

## Asset Management Solutions

*Asset Management Solutions provides you with fast, reliable and comprehensive facility & asset lifecycle planning, utilization monitoring, expense control, vendor contract management and realtime analysis capabilities. It enables you to extend the appropriate information & business workflow, so that you can improve the efficiency of your existing facility & asset management processes.*

The function includes:

- Track serialized asset/Non Serialized asset
- Usage for the asset
- Find the used and new quantity on hand
- Customer wise transaction/Outstanding stock
- Rental stock/Disposed stock
