

Hotel Management Software

Hotel Management System - Easy to use, yet powerful hotel software, offering management and reservation solutions for all types of hotels, motels, B&Bs, resorts and so on.

Key Benefits:

- Overnight/Transit accommodation
- Different room types and price settings
- Public holiday/Weekend surcharges
- Guest history and their preference maintenance
- Reservation, check-in, check-out
- Room extension, change room and additional services maintenance
- Lost of found maintenance
- Daily payment settlement
