

## ERP - Enterprise Resource Planning

ERP Software gives you real time information on current stock levels and values including stock on order, raw materials, work in progress and finished goods.

Whether you are a manufacturer, wholesaler or retailer, management of your inventory is critical to controlling your costs and ensuring the smooth operation of your business.

It offers inquiry functions that allow users to enquire the stock on hand of a specific item by keying in the item number or product description. The inventory module supports unlimited multi-warehouses, both logical and physical and keeps track of every aspect of the inventory from stocks on hand, incoming stocks, stocks returns and spoilages.

The Function Includes:

- Multi- Warehousing, Warehouse Bins
- Complete Stock levels managing.
- Create your own Barcodes, use Supplier Barcodes
- Traceability and Batch Control
- Set Auto Re-order triggers
- Integrated POS
- Multiple Pricing levels
- Customer Specific Pricing
- Units of Measure (UOM)
- Inventory Costing Controls
- Consignment and Loan
- Stock Item
- Stocktake and Revaluations

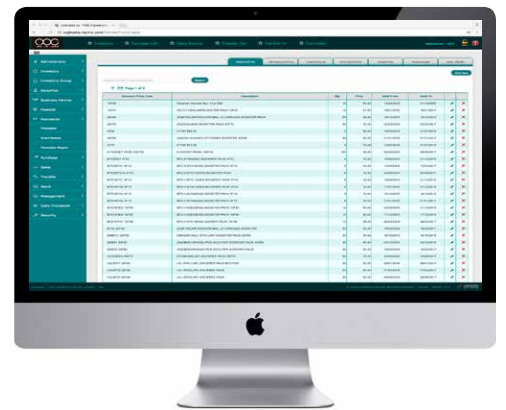

Inventory Report

| Item Code | Description                                  | UOM | Carton Size | PRC Code | Wt Qty | Lt Qty | FSC  | Unit Cost | Discount | Total    | Remarks | Start Date |
|-----------|--|-----|-------------|----------|--------|--------|------|-----------|----------|----------|---------|------------|
